Training

Skyscanner under Forage | Web Application Development **Jul 2025 - Aug 2025**

Front-End Software Engineering Training

- Completed Skyscanner's Front-End Software Engineering virtual experience on Forage, focusing on building and testing a **React Js-based** travel date picker.
- Implemented reusable UI components using Skyscanner's Backpack design system to ensure consistency and accessibility.
- Gained hands-on experience in Front-end development workflows, including component-based architecture and UI testing.
- Strengthened practical skills in modern web development through real-world, industry-aligned tasks.

Projects

Fashion E-commerce Website Development | *Wordpress* **Aug 2025-Nov 2025**

- Developed a responsive fashion e-commerce store using Wordpress and WooCommerce to deliver a seamless online shopping experience.
- Customized themes and plugins to enhance usability. Secure checkout and efficient produce and inventory management.
- Integrated chatbot and analytics tools to improve customer engagement, monitor site performance and support data Driven decisions.

Art and Assets E-commerce Website | *JavaScript, Node Js, SQL* **Feb 2025 - May 2025**

- Developed an e-commerce platform for selling artwork such as paintings, designed art pieces, and second-hand commodities used in everyday life.
- Implemented product browsing, ordering, and digital payment features while integrating a payment gateway for secure transactions.
- Built backend functionality to process payments, update inventory automatically, and manage product delivery to customers.
